Southeast Asia Country Comparison

Using the information you have on your chart, think about the following and compose an answer using complete sentences.

1. Looking at the countries, what do they have in common?
2. Look at the literacy rate for the countries. The literacy rate in the US is 99% for both males and females. How do these countries compare to our literacy rate? How do male and female rates compare in South Asia?
3. Religion is a very important part of people's lives and countries' relationships. Based on religion, which countries might be friends? Which might not be close?
